## CONTENTS

### FINISHED PRODUCTS

- BLDC BIG DIAMETER FANS** P04
- METAL IN-LINE DUCT FANS** P06
- PLASTIC IN-LINE DUCT FANS** P08
- AIR CURTAIN** P10
- INDUSTRIAL EXHAUST FANS** P12
- HIGH VELOCITY FANS** P14-P21
- IAXIAL FANS** P22
- INDUSTRIAL CEILING FAN** P24

### COMPONENTS

- BRUSHLESS DC MOTOR** P27
- EXTERNAL ROTOR MOTOR** P28
- CAPACITOR MOTOR** P29-P33
- SHADED POLE MOTOR** P34-P35
- CEILING FAN MOTOR** P36

### OTHER COMPONENTS

- AIR CHAMBER** P38
- IMPELLER WITH MOTOR** P40
- ACTIVATED CHARCOAL FILTER** P42

GAOWEI GROUP

## INTRODUCTION

GaoWei group was founded in 1979. It is committed to the development and production of motor since 1983, the annual output is about 5000000 units. Since 1999, the company has started a joint venture of R&D manufacturing enterprise cooperated with a well-known European home appliance company. Our main products include various kinds of ceiling fan, fan heaters, kitchen ventilating products, industrial ventilation products and all kinds of motor products. The company covers an area of more than 150,000 square meters, the building area is 350,000 square meters. Currently the company has five general assembling plants with subsidiaries factory of hardware punching, plastic injection, powder coating and electrostatic enameling. Moreover, the company owns more than 500 units of production equipment such as 50-500T automatic punching machines, hydraulic machine, large injection molding machine, automatic laser cutting machine, CNC bending machine, automatic electrophoresis line, automatic powder spray line, automatic electrostatic powder enamel and other advanced equipment and plus the total of 100 standard assembly lines.

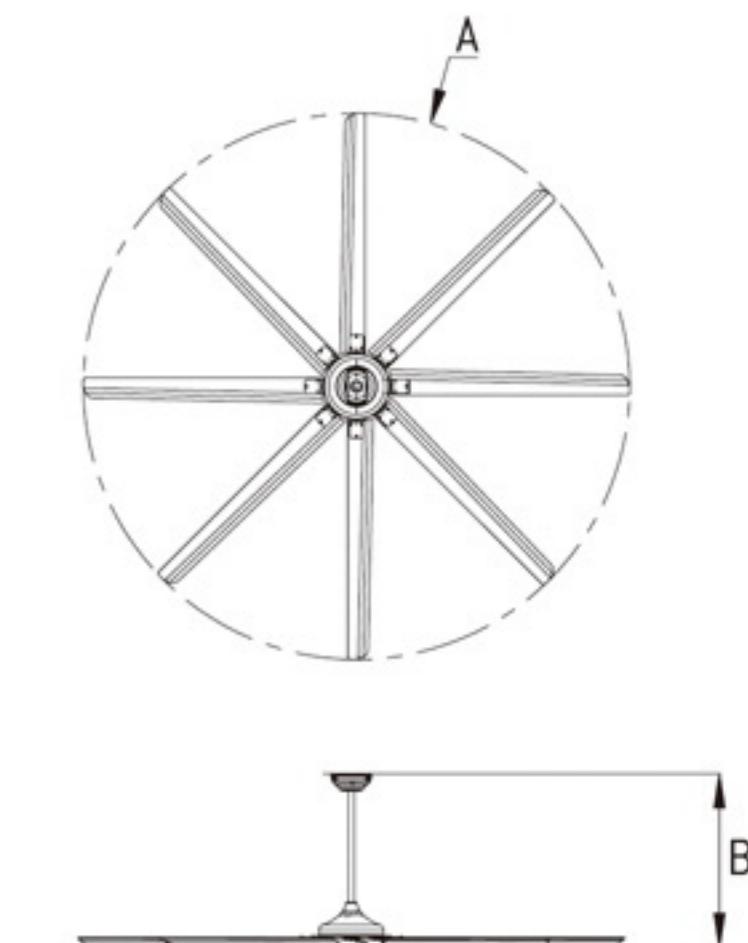

At present, the company owns a motor research institute and a team of 200 R&D technicians and managers, half of them are holding a senior professional titles, thus, we has the qualification of independent research and development ability for different kinds of product.

We sincerely welcome customers from all over the world to cooperate with us to seek bright future in mutual benefit.

# BLDC BIG DIAMETER FANS

## BLDC BIG DIAMETER FANS

### Product Description:

The big diameter ceiling fan is driven directly by the leading brushless DC motor technology. It can effectively drive large air flow at low speed, produce large air volume, and make the air flow field of circulation movement. It is an ideal solution of ventilation and cooling for large spaces. It is widely used in industrial plants, logistics warehouses, exhibition centres, agriculture, theme park, restaurants, shopping mall and other large venues.

### Product Features:

- The fan utilises permanent magnet brushless motor.
- Simple and reliable structure without the reducer.
- Simple wiring and convenient installation.
- There are 6 switches with varieties of air speeds could be selected.
- Remote control, easy to operate.
- The system operates smoothly with low noise and less heat.
- The fan blade is made with thick aluminium plate, which is safe and reliable.

### Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Air Volumn (m³/h)	Area Cover (m²)	Size		
								A(mm)	B(mm)	C(mm)
<b>CF-80DCC-8B</b>	230	50	0.81	80	40~100	16000	100	2032	670	2032

# METAL IN-LINE DUCT FANS

## METAL IN-LINE DUCT FANS

### Product Description:

Our metal in-line duct fan is made of metal cover and metal impeller with quality motors, which provides singer phrase external rotor motor or brushless DC motor option. The printed metal design provides the features of rusty and dust protection and high temperature resistance. Due to the characteristic of dampen torque ripples of external rotor motor, the fan is able to operate at a stable and smooth range. For the brushless DC motor, the fan is driven by high efficient design, which helps for higher energy saving and more environmentally friendly. Both options provide a better performance on large air pressure and volume, low noise and long life. They are best selection of cooling ventilation for commercial and industrial applications.

### Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Capacitor (μF)	Air Volumn (m³/h)	Size		
								A(mm)	B(mm)	C(mm)

# PLASTIC IN-LINE DUCT FANS

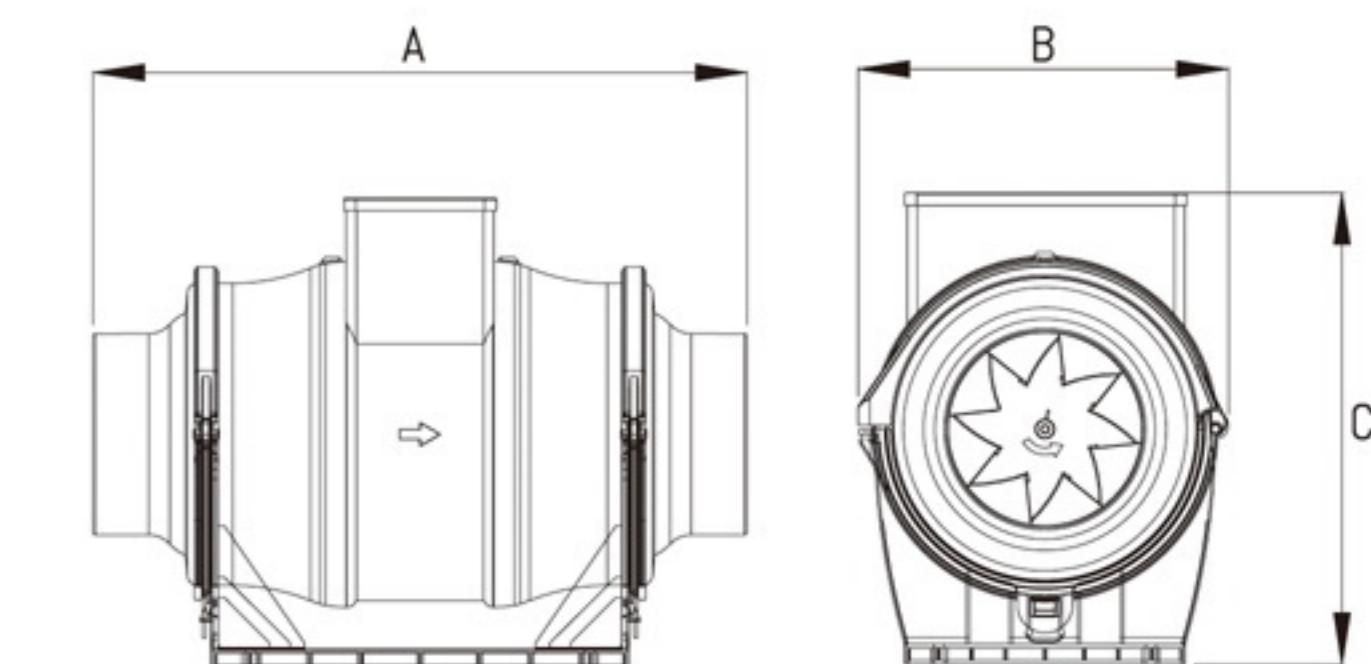

## PLASTIC IN-LINE DUCT FANS

### Product Description:

The plastic in-line duct fans is largely adopted in wide ventilation range of residential, commercial and industrial application. The plastic cover and impeller of the fan is made of pure material which is environmental and durable. The quality capacitor motor which is supplied in the fan provides an efficient performance with larger air volume, quite operation and energy saving. It is an extremely quiet, efficient, economic and environmental friendly in-line fan for normal utilisation and low noise work place.

### Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Capacitor (μF)	Air Volumen (m³/h)	Size		
								A(mm)	B(mm)	C(mm)

# AIR CURTAIN

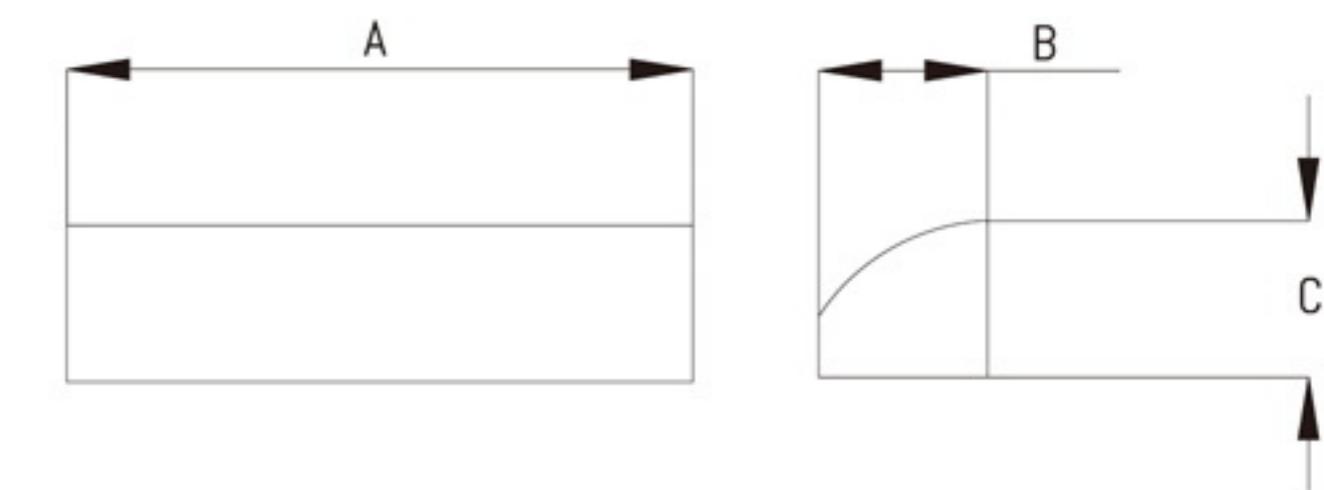

## AIR CURTAIN

### Product Description:

Our different dimensions air curtain is suitable for variable sizes of installation. The wall application is well adopted in commercial and industrial sites. This machine can fit up to 4 meters height and it could perfectly create an air barrier over the doorway to prevent the air move from separate places, and thus to prevent energy loss. Its metal design helps for high temperature resistance. All ranges provide brushless DC motor options, which is high efficiency and energy saving solution for the end users, moreover, the quality and reliable DC options can also provide an extremely low noise environment to the users.

### Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Capacitor (μF)	Air Volumn (m³/h)	Size		
								A(mm)	B(mm)	C(mm)

# INDUSTRIAL EXHAUST FANS

## INDUSTRIAL EXHAUST FANS

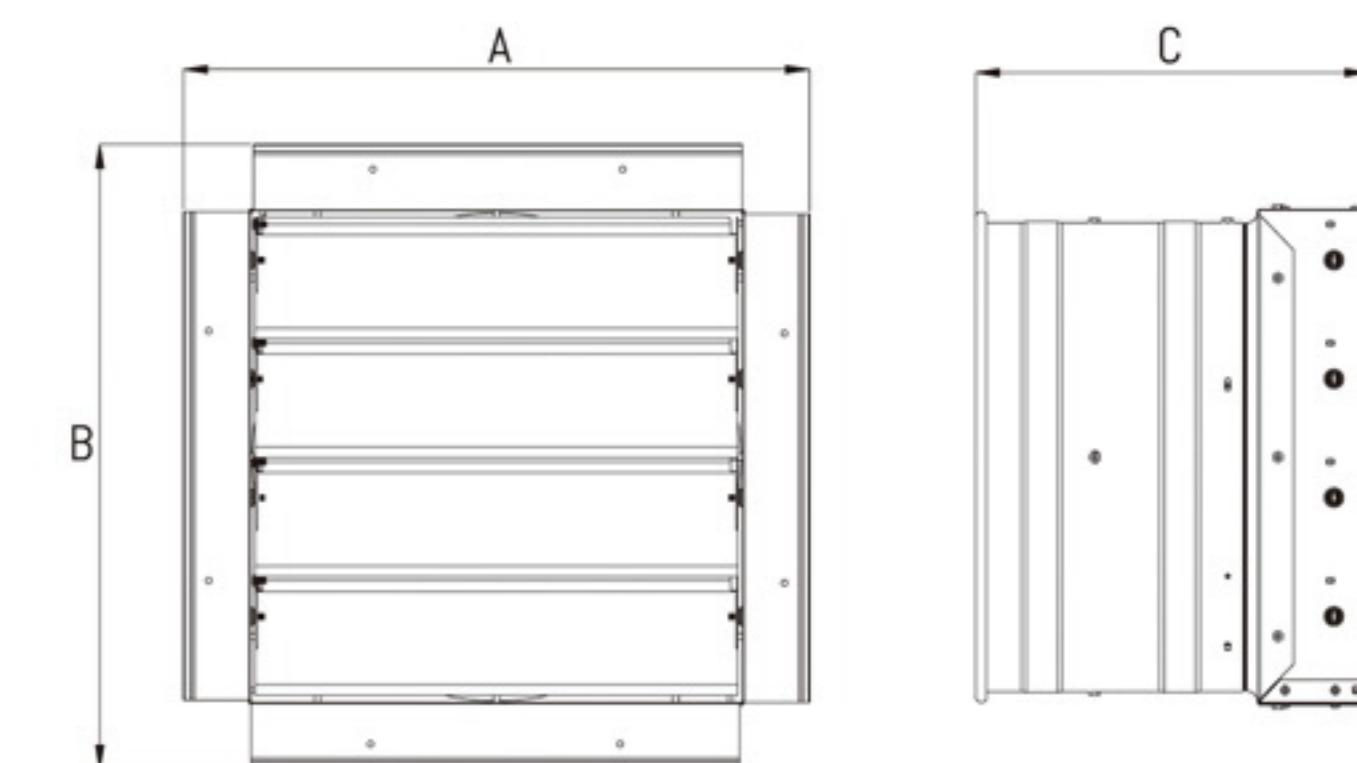

### Product Description:

The industrial exhaust fan is manufactured with galvanised steel housing which makes the fan have the characteristics of rust and heat resistance and long lasting durability. With the quality inserted motor, the fan provides an experience of high air volume, high efficiency, energy saving, low noise and easy installation for users. It is an ideal ventilation choice for commercial, industrial and agriculture applications, such as warehouse or farm.

### Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Capacitor (μF)	Air Volumn (m³/h)	Size		
								A(mm)	B(mm)	C(mm)

GFP30	120	60	5.2	570	1050	32	5500	954	954	388

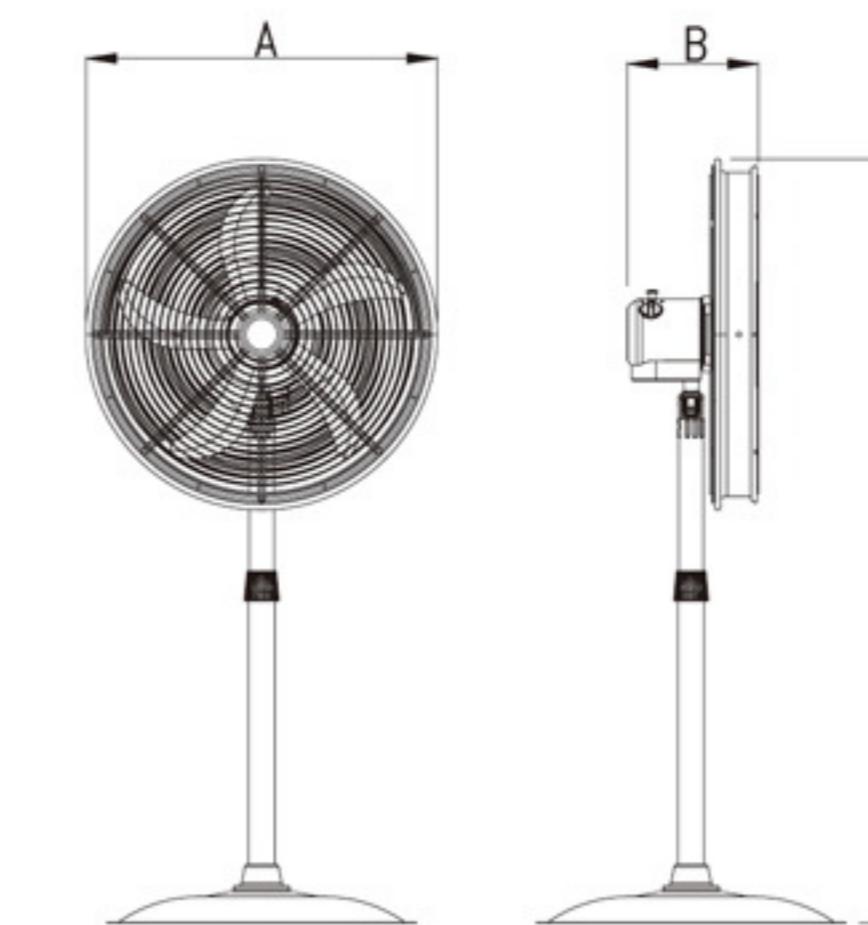

## HIGH VELOCITY FANS

### STAND FANS

#### Product Description:

We provide full set of high velocity fan, such as stand fan, floor fan, oscillating floor/wall fan and drum fan. All velocity fans came with elegant metal appearances and quality motors. The largest air volume can go up to 7500m<sup>3</sup>/h, which is the ideal option in high humidity and temperature circumstances. This fan also provide brushless DC options, which to provide high efficiency to the fan.

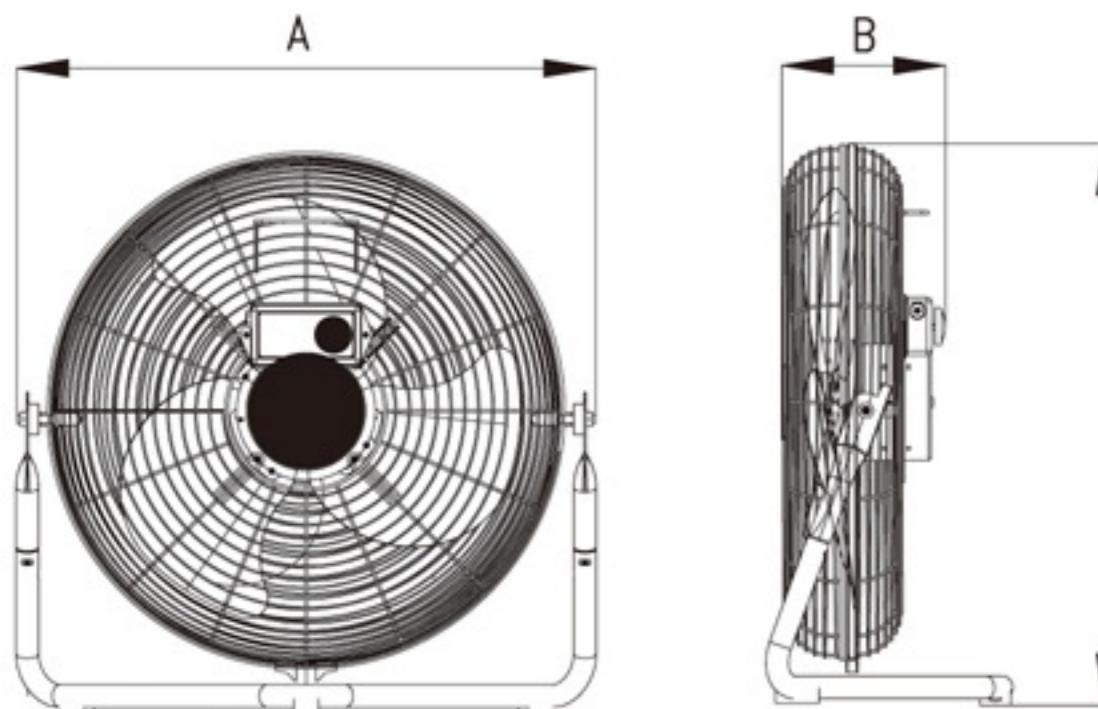

#### Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Capacitor (μF)	Air Volumn (m <sup>3</sup> /h)	Size		
								A(mm)	B(mm)	C(mm)

SF-16/B	230	50	0.217	50	1150	1.5	880	450	450	1180

## FLOOR FANS

### Product Description:

We provide full set of high velocity fan, such as stand fan, floor fan, oscillating floor/wall fan and drum fan. All velocity fans came with elegant metal appearances and quality motors. The largest air volume can go up to 7500m<sup>3</sup>/h, which is the ideal option in high humidity and temperature circumstances. This fan also provide brushless DC options, which to provide high efficiency to the fan.

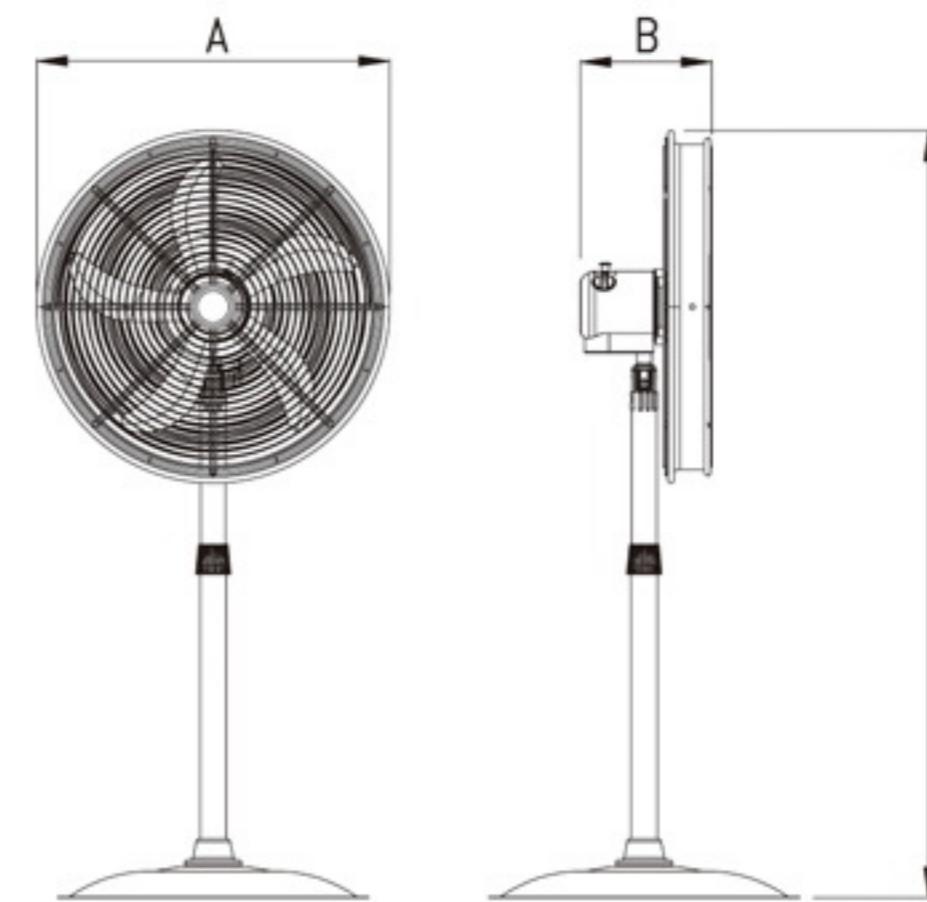

### Product Parameters:

## OSCILLATING FLOOR FAN

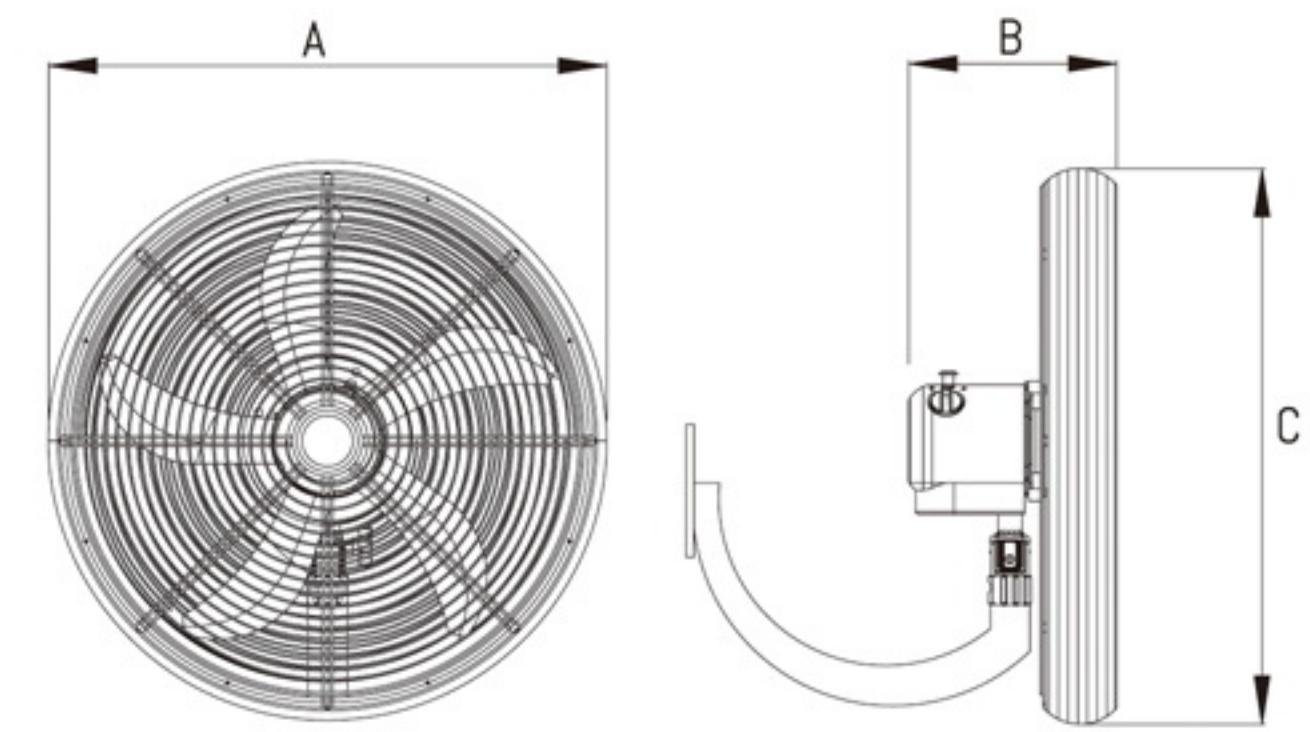

### Product Description:

We provide full set of high velocity fan, such as stand fan, floor fan, oscillating floor/wall fan and drum fan. All velocity fans came with elegant metal appearances and quality motors. The largest air volume can go up to 7500m<sup>3</sup>/h, which is the ideal option in high humidity and temperature circumstances. This fan also provide brushless DC options, which to provide high efficiency to the fan.

### Product Parameters:

## AXIAL FANS

### Product Description:

Axial fans create large volume and low pressure of air flow and they are best suited for general purpose applications. The highest air volume can go up to 9000 m<sup>3</sup>/h. The outstanding features of the axial fans are they are at low noise level and exceptional efficiency.

### Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Capacitor (μF)	Air Volumen (m <sup>3</sup> /h)	Size

# INDUSTRIAL CEILING FAN

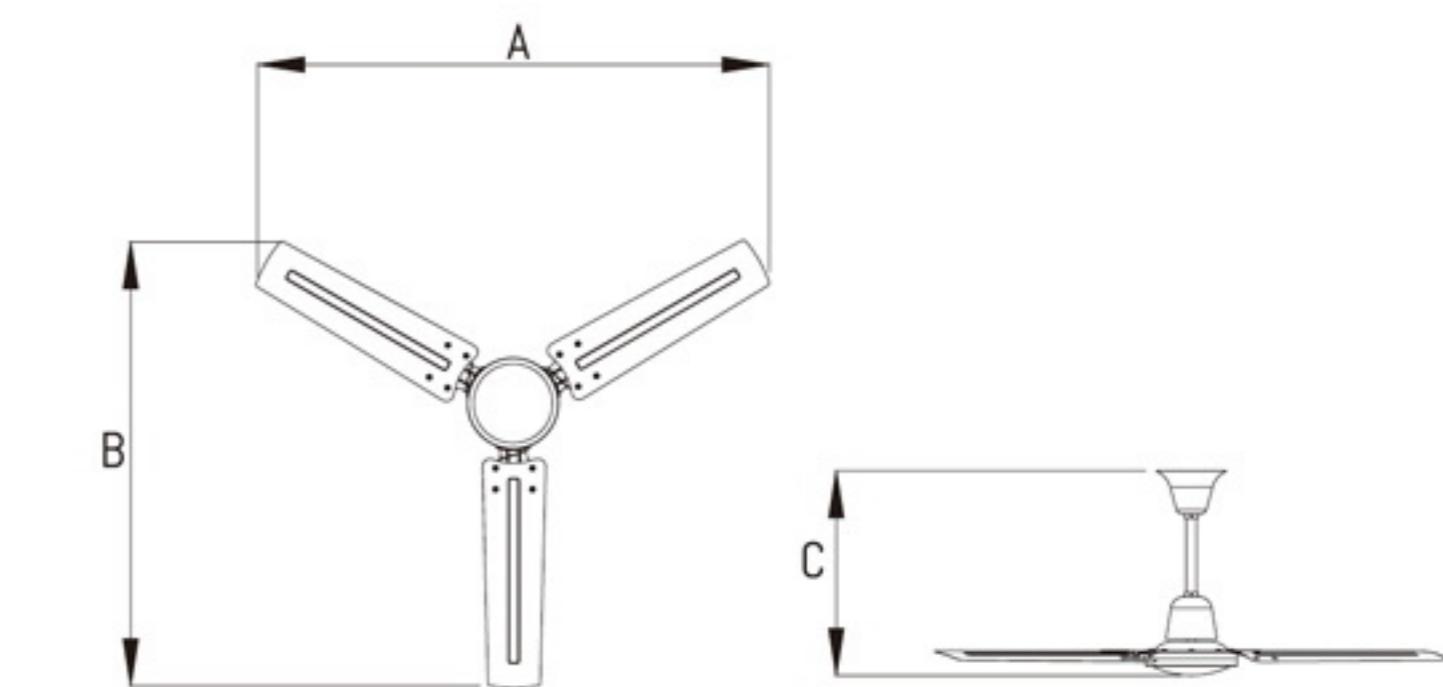

## INDUSTRIAL CEILING FAN

### Product Description:

Industrial ceiling fans allows air circulation and cooling for residential, commercial and industrial application. The ceiling fans made of steel and capacitor motor. The air flow helps for reliable cooling and enhance conform in the humid and hot area. The painting options provide more corrosion resistance and long lasting durability to the fan.

### Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Capacitor (μF)	Air Volumn (m³/h)	Size

# MOTORS

Since 1983, Gaowei have committed to develop and produce motor for ventilation applications and all other usage applications. Currently we have products of brushless DC motor, external rotor motor, capacitor motor, shade pole motors and ceiling fan motor etc. we have started our research in brushless DC motor for years and the first production started at 2013, as we saw the trend of EC motor in the world and also the technical advantages of BLDC over other traditional motor solution, which is higher speed, low noise, high power, electronic control, provide high efficiency to the applications and to helps for energy saving, and long lasting durability. BLDC provides more efficient and energy saving solution to all residential, commercial and industrial applications, it is your ideal choice for your higher standard!

For other quality and more economical solution, please refer to the rest of the motors we produce. Please kindly note that different voltage, frequency and shaft elongation motors can be designed and produced according to customer requirements.

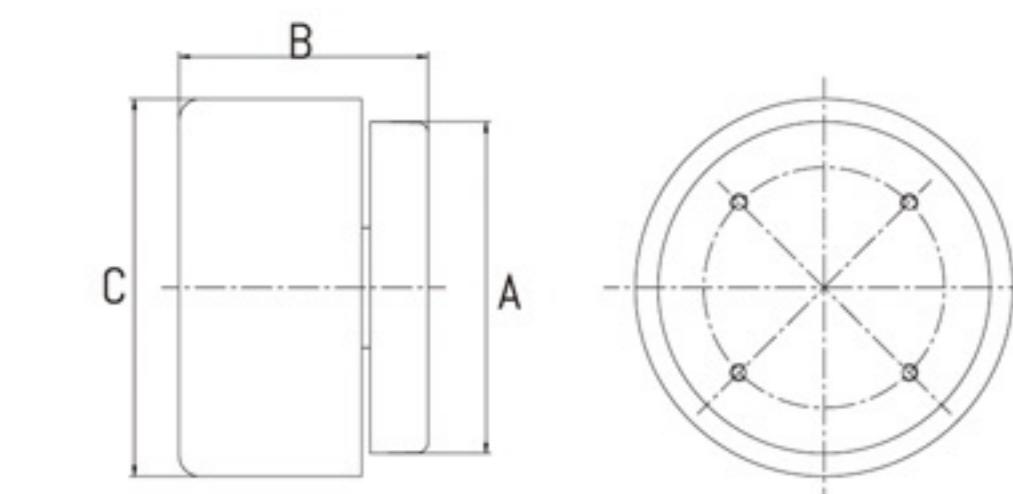

## BRUSHLESS DC MOTOR

Product Parameters:

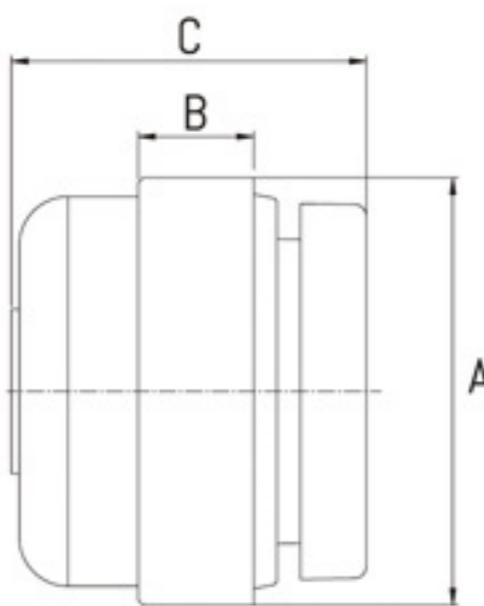

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Insulator Level	Size		
						A(mm)	B(mm)	C(mm)
DC8240-001	230	50	0.565	130	B	84	90	123
DC8230-001	230	50	0.478	110	F	84	90	123

Product Parameters:

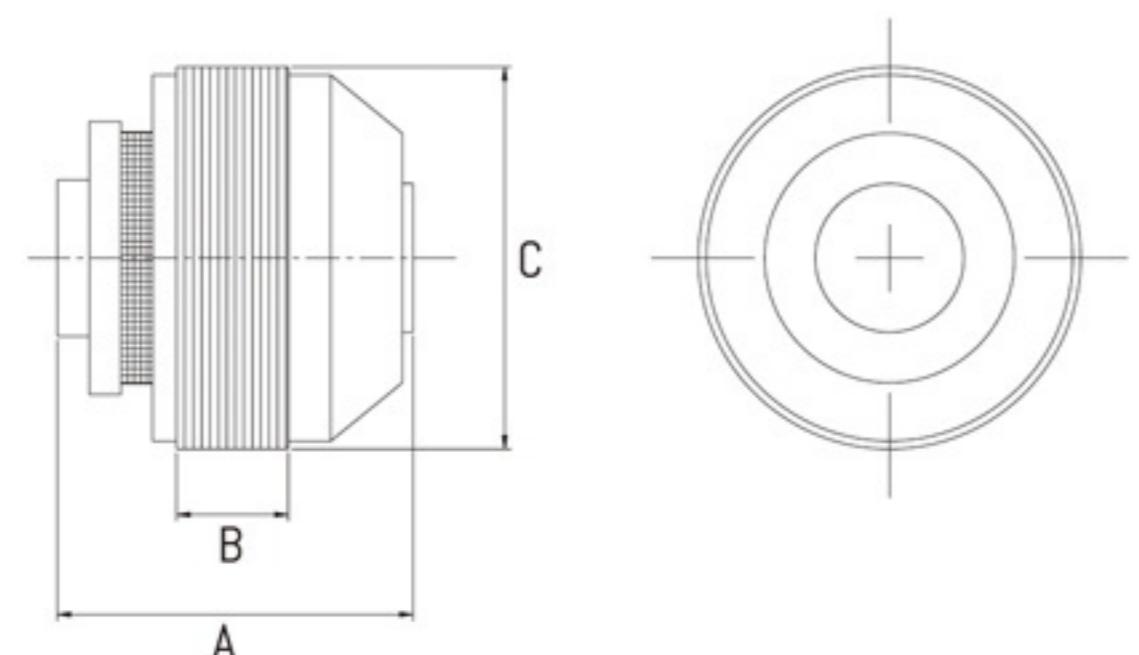

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Insulator Level	Size		
						A(mm)	B(mm)	C(mm)
DC9215-001	230	50	0.434	100	F	91	60	80
DC9225-001	230	50	0.651	150	F	91	60	80
DC9240-001	230	50	0.868	200	F	91	60	80
DC7113-001	230	50	0.217	50	F	91	60	80
DC7125-001	230	50	0.347	80	F	91	60	80
DC7130-001	230	50	0.434	100	F	91	60	80
DC18230-001	230	50	0.521	120	F	91	60	80
DC18260-001	230	50	1.085	250	F	91	60	80

## EXTERNAL ROTOR MOTOR

Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Capacitor (μF)	Insulation Level	Size		
							A(mm)	B(mm)	C(mm)
YWF9215-005	230	50	0.348	80	3	F	91	14.5	95
YWF9225-004	230	50	0.87	200	5	F	91	24.5	75.5
YWF9240-004	230	50	1.217	280	6.5	F	91	39.5	91

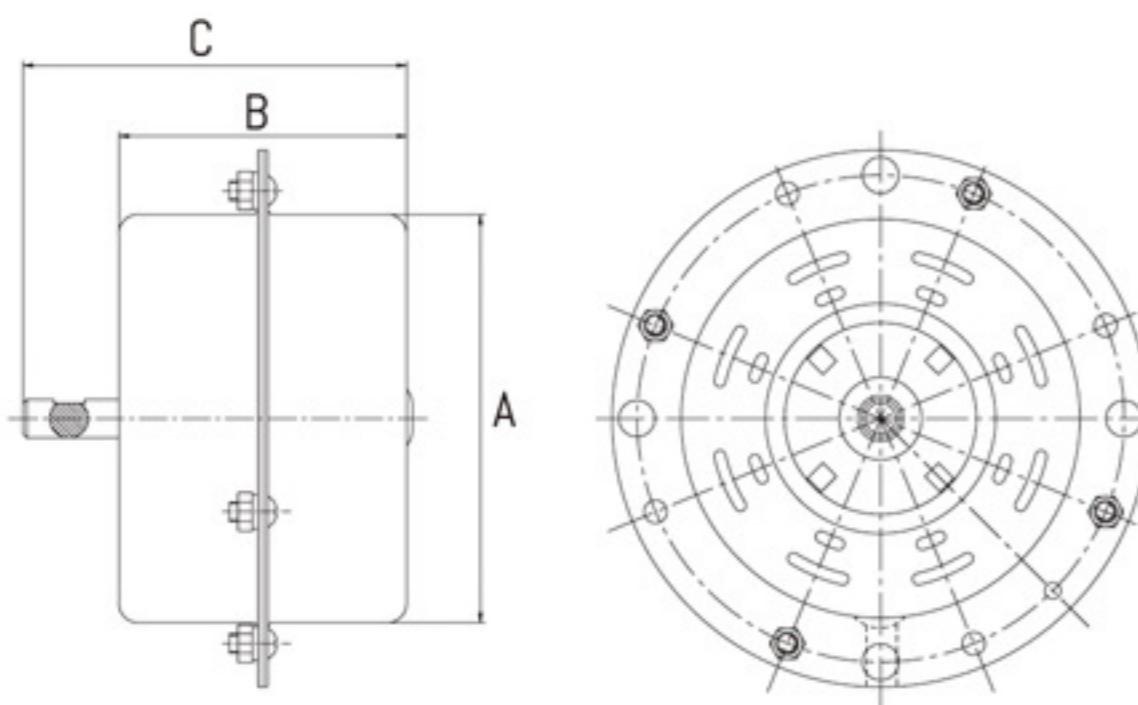

Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Capacitor (μF)	Insulation Level	Size		
							A(mm)	B(mm)	C(mm)
YWF2003-001	230	50	0.399	91.2	2+3.5	F	68	21	72

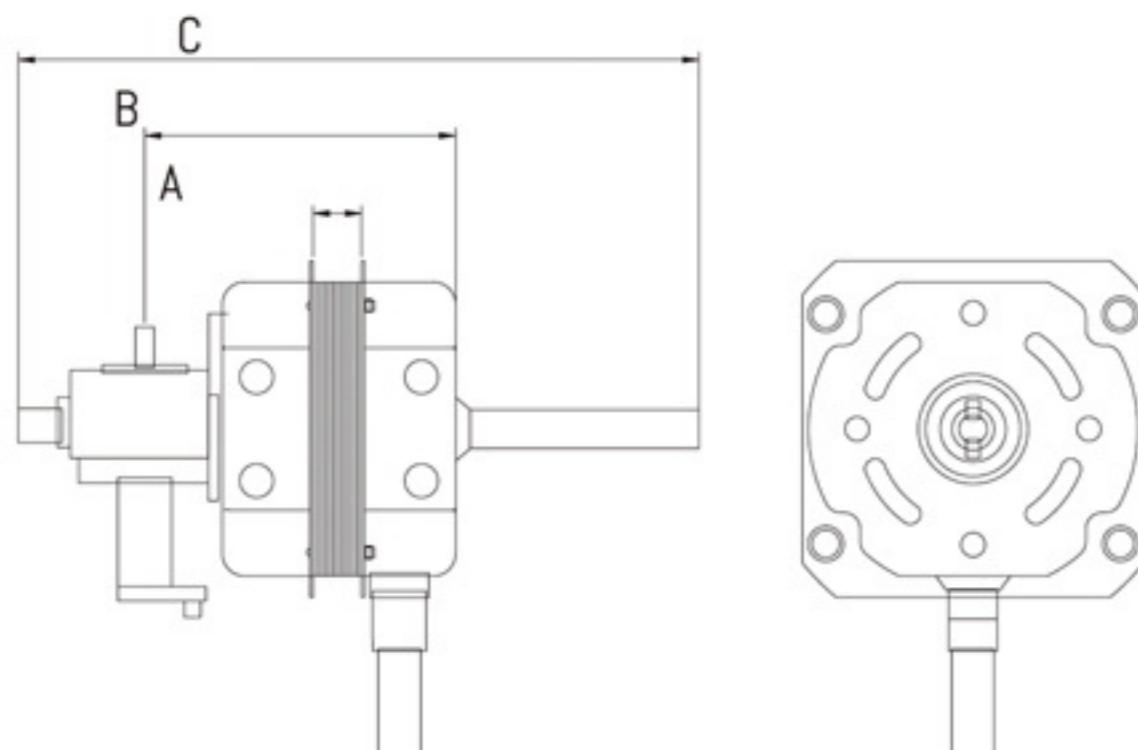

## CAPACITOR MOTOR

**CAPACITOR MOTOR**

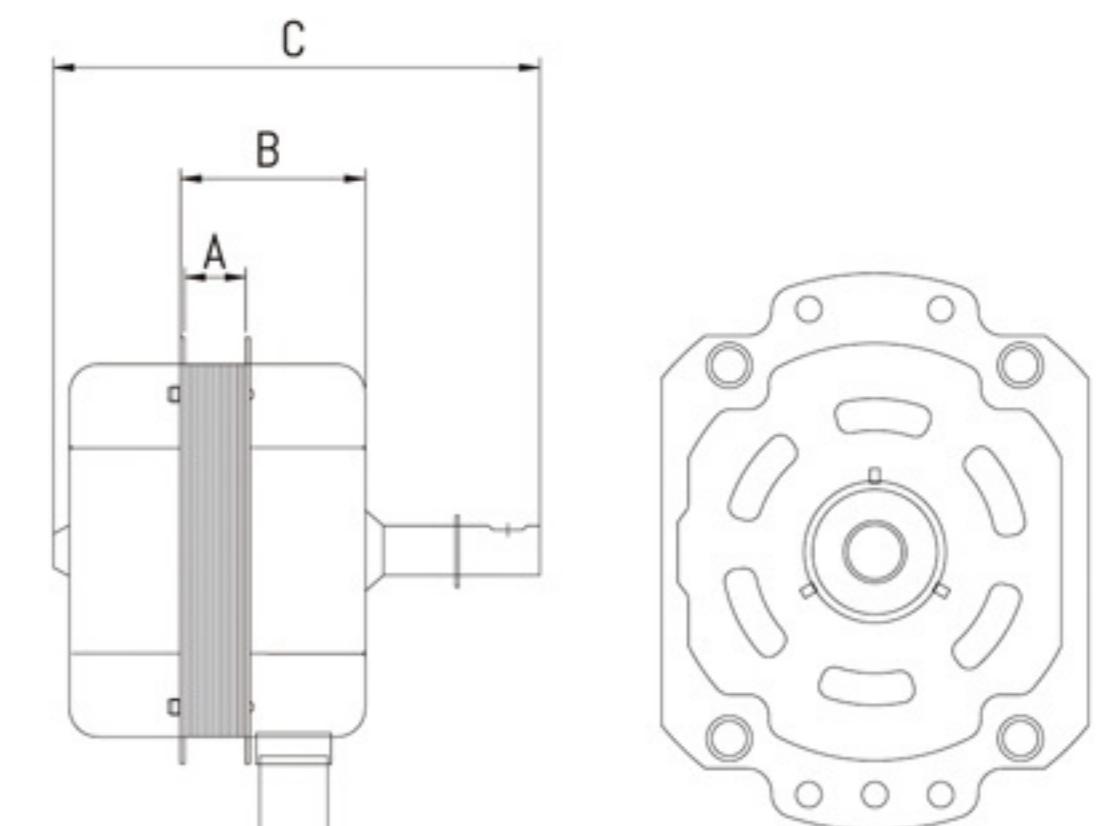

Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Capacitor (μF)	Insulation Level	Size		
							A(mm)	B(mm)	C(mm)
<b>YDF12040-031</b>	230	50	1.087	250	6.5	B	123	120	152

# OTHER COMPONENTS

## Air Chamber

The HB-01 air chamber comes with a brushless motor, 2 plastic impellers and a plastics blower. The HB-02 and HB-03 air chamber comes with a brushless motor, a plastic impellers and a plastics blower. All this three chambers are adopted in hood products, we could designed and produced different voltage, frequency and shaft elongation motors, different impeller and different blower according to your requirements.

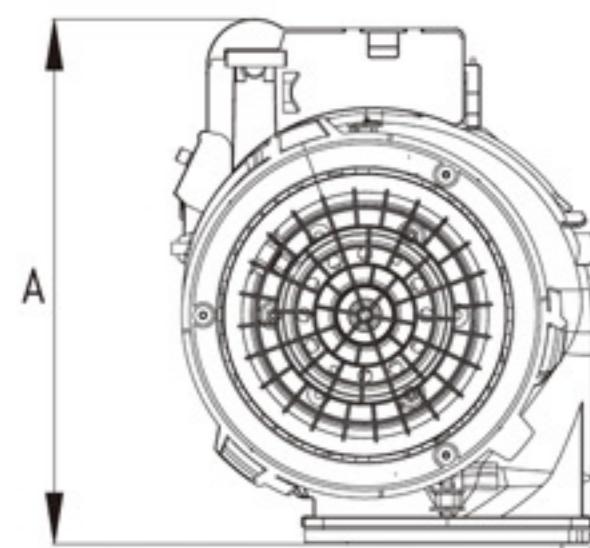

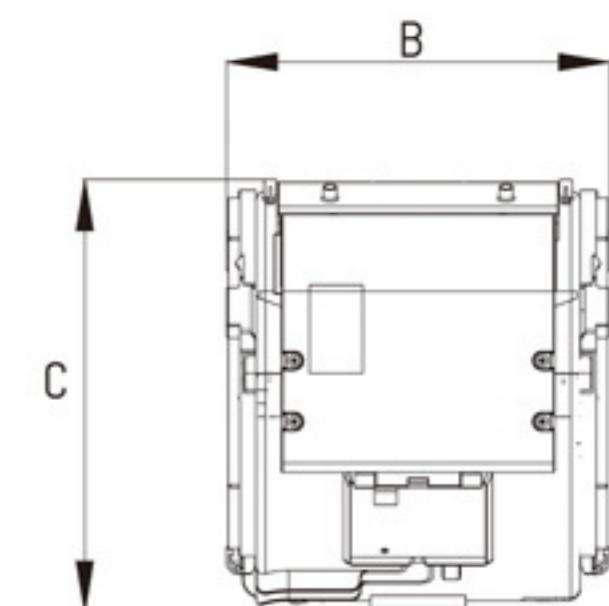

## AIR CHAMBER

### Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Insulator Level	Size		
							A(mm)	B(mm)	C(mm)
<b>HB-01</b>	220-240	50	1.29	185	2119	F	275	200	230

### Product Parameters:

# OTHER COMPONENTS

## Impeller with Motor

IM-004, IM-006/008, IM-010 and IM-012 come with an external rotor motor and a metal impeller. IM-004DC, IM-101DC and IM-012DC come with external brushless motor and a metal impeller. IM-006DC-HE and IM-008DC-HE come with external brushless motor and a plastic impeller. All these impellers with motors are adopted in in-line duct fans, we could we could designed and produced different voltage, frequency and shaft elongation motors and different impeller according to your requirements.

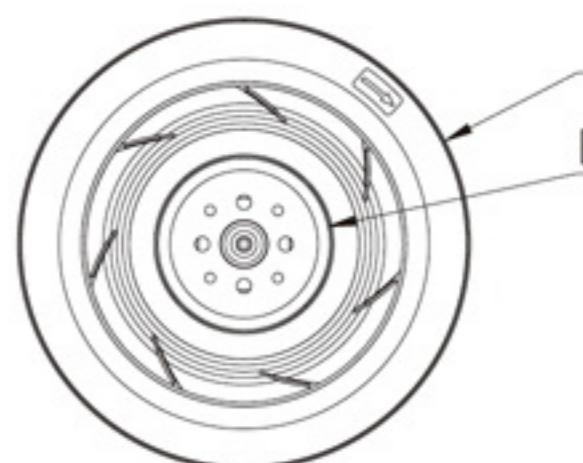

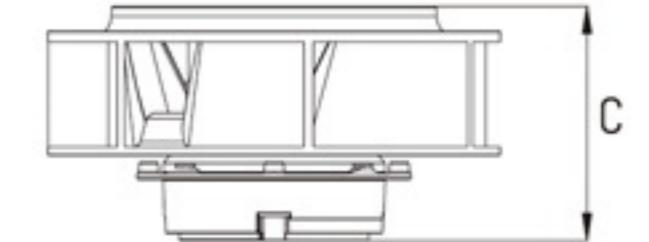

## IMPELLER WITH MOTOR

Product Parameters:

Model	Voltage (V)	Hertz (Hz)	Current (A)	Input Power (W)	Rotation (RPM)	Size		
						A(mm)	B(mm)	C(mm)
<b>IM-004</b>	230	50	0.348	80	2450	Ø200	Ø91	78.5
<b>IM-006/008</b>	230	50	0.87	200	2500	Ø250	Ø91	109
<b>IM-010</b>	230	50	0.87	200	2600	Ø250	Ø91	109
<b>IM-012</b>	230	50	1.217	280	2578	Ø320	Ø91	116
<b>IM-004DC</b>	230	50	0.348	60	2450	Ø200	Ø91	78.5

## ACTIVATED CHARCOAL FILTER

### Activated Charcoal Filter

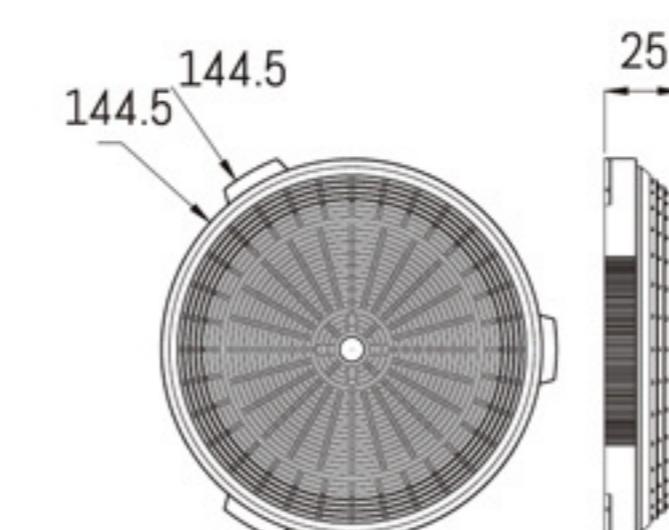

ACT-01 and ACT-02 come with a cotton net with plastic shell and activated charcoal particles. From ACT-03 to ACT-09 come with plastic shell and activated charcoal particles. ACT-10 and ACT-11 come with plastic shell and activated charcoal fibre. All these filters are adopted in hood products.

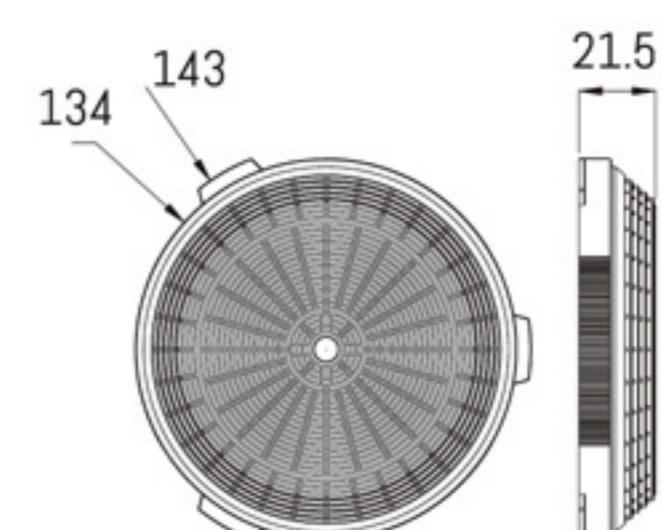

ACT-01

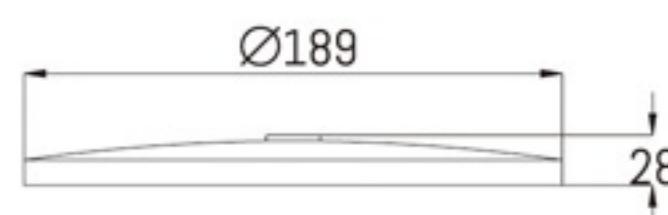

ACT-06

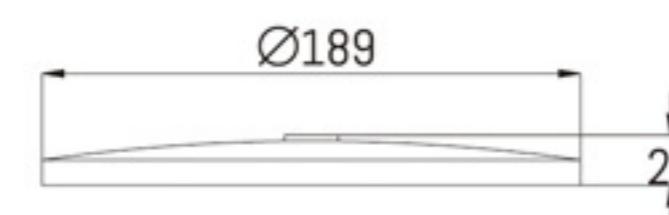

ACT-07

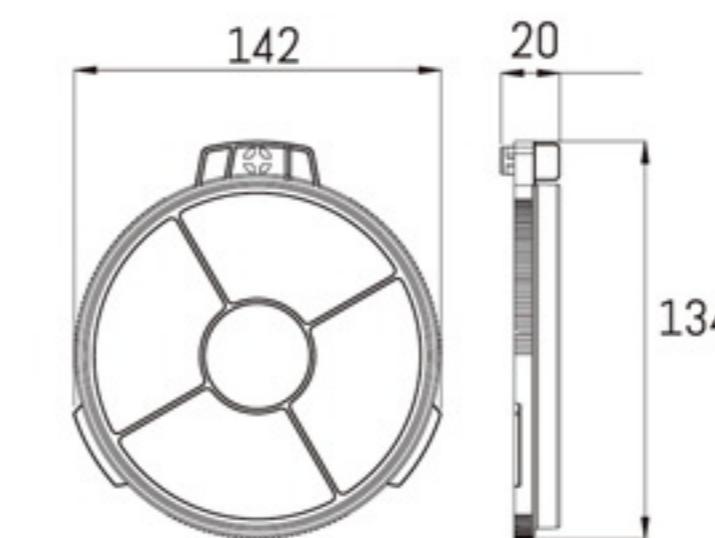

ACT-02

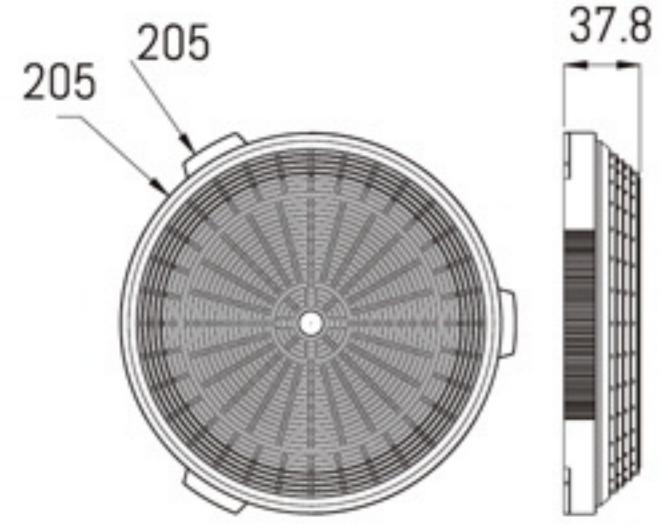

ACT-03

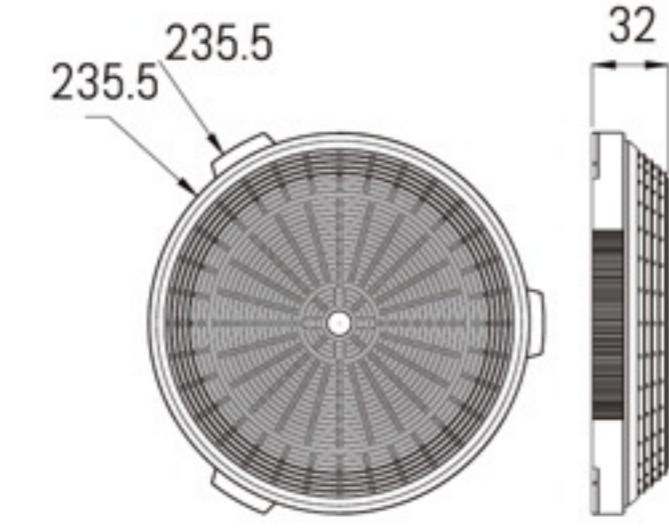

ACT-08

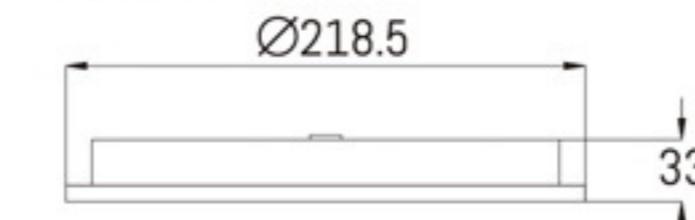

ACT-04

ACT-05

ACT-10

ACT-11
